

Labour's Local Candidate

Dear Resident,
The Conservative led Government has been creating a low wage, low skill, insecure economy which is not generating the resources to maintain our public services,
Labour believes in a National Investment Bank which will create new wealth and promises a job guarantee for young people out of work for more than a year.
As an Island resident of 37 years, with a long experience in the tourism and catering industry, I understand the problems of local industries and services.

Yours Stewart Blackmore
Labour's Parliamentary Candidate

Working To Remove the Tories

The Isle of Wight has the second worst youth unemployment in the South East of England. With Government cuts to the Prisons Service and the Isle of Wight Council and the closure of local firms, our Conservative MP is presiding over a *Jobs Crisis* that is making the *Cost of Living Crisis* even worse.

LABOUR WILL:-

- Set up a British Investment Bank to provide for key infrastructure and provide the funds that small and medium sized firms need to expand. Having derailed the economy by speculating abroad, the commercial banks have failed to lend to British firms.
- Provide a guaranteed job for every young person under 25 who has been out of work for a year and include training relevant to the job.
- Pressure large firms to pay a Living Wage, higher than the Minimum Wage, and make this a factor in all Government Contracts

A dynamic economy with more people in work and at a decent wage will provide the income to improve our local services
